

✦ Built for busy medical professionals

Your patients are searching for you online. Make sure they find a doctor they trust.

KOKAO writes your health content, designs your visuals, and publishes to every platform — so you can build your practice's reputation while you focus on patients.

Patients check first

Most patients look up a doctor online before booking a consultation.

You have no time

Writing posts, designing graphics and managing 6 platforms isn't your job.

Agencies cost a fortune

₹20,000-50,000 per month, with days of back-and-forth for every post.
